

- 
3. Which fund type can I transfer through the Service Budget Transfer module?
    - Designated (14), Auxiliary (16), General Restricted (22). Transfers are limited to non salary type budget pools
  4. How are General Restricted Funds budgeted?
    - This fund type is budgeted based on the fiscal year Revenue received after a budget is established may be budgeted once the revenue is realized. This is requested using the same form as a transfer.
  5. I made a deposit to my General Restricted Index, but I do not see it in my budget, where is it?
    - When a deposit is made to your revenue account, the budget does not instantaneously become available for you to spend in your expenditure account. You must submit to the Budget Office a Budget Change

9. How do I request a new index?

- Requests for a new index will be reviewed by Financial Services at the Budget Office. If the request meets certain criteria the index will be created and the Budget
